

Poolworks' specialist knowledge of pools, irrigation and water features now spans 28 years. Since 1980 the director has been working both here and abroad on projects ranging from Diver training facilities, hospitals and water features to irrigation projects and leak detection for Euro-Disney, Paris.

Specialising in commercial leisure facilities has enabled Poolworks and its dedicated team to broaden their capabilities which now include Sauna and Steam, Gym equipment, Fitness linked database installations, as well as microbiological testing, training and facilities management.

A small number of quality domestic owners have been included over the last 5 years, in order to maintain a high standard of service.

This growth has allowed Poolworks to purchase another pool company, Ecopool and incorporate its parent company aQuacare, which has built a reputation on honesty, consideration and good service.

We aim to maintain this high level of service and continue our environmental commitment.

We offer a full range of services from pool opens, and closedowns, maintenance, pool and spa cleans, sauna and steam maintenance, including commercial breakdown cover for a host of items including some leading brand gym equipment. Our exclusive client base gives us the freedom to devote quality time to our clients, but we also realise that we have a duty to the environment.
